Vault Security & Surveillance

Singapore is one of the world's safest jurisdictions.

Even so, BullionStar takes no chances with the safety and security of your bullion. Your bullion is secured in a vault behind layers of the strictest security and surveillance. Access is guarded by double gates, mantraps, body scanners, x-ray scanners and a professional security team. Every item of your bullion is protected with 360-degree high-resolution cameras, motion and seismic sensors, smoke detectors and nitrogen gas suppressants in an environment of controlled temperature and humidity worthy of high-value fine arts.

BullionStar employs world leading routines in handling your bullion with the utmost care and security. You can follow every step of your transaction through your BullionStar account. We also keep you updated on the status of your orders by e-mails and text messages.

The high security coupled with a strong rule of law add to Singapore being the best jurisdiction in the world for buying and storing bullion.

Insurance & Auditing

You're in good hands! Safety and protection for your peace of mind.

LLOYD'S

BullionStar's comprehensive insurance policy is underwritten at Lloyd's of London, the world's leading marketplace for insurance and reinsurance with a history spanning more than 2 centuries and a reported gross written premium of more than £50bn.

Our insurance policy covers all risks at full replacement value. Your bullion is always 100% insured. You will never bear any risk whatsoever for loss or damage to your bullion when you store with BullionStar.

With five forms of auditing, BullionStar offers the most sophisticated bullion auditing anywhere. BullionStar's rigorous practices and comprehensive auditing ensure the safety and security of your bullion. All external auditing is done anonymously based on your vault account number to preserve your customer confidentiality.

Live Audit Report

BullionStar's live audit system allows you to verify the existence of your bullion directly against our vault inventory system. All bullion held under all BullionStar accounts can be viewed anonymously in the Live Audit Report. The Live Audit Report is updated instantly and automatically upon any vault activity.

Customer Audits

You can audit your stored precious metals in person at BullionStar's state-of-the-art vault located within the high-security facility of Le Freeport. Simply make an appointment online!

Internal Audits

Every buy or sell order is verified and initialed by two bullion officers. All processing and handling are captured on multiple surveillance cameras. Every stock and inventory item is meticulously tracked and data is regularly verified by physical stock enumerations.

External Audits

BUREAU VERITAS 1828

BUREAU VERITAS

Audits are conducted twice every year by Bureau Veritas, an approved service provider of the London Bullion Market Association and a leading auditor in the global bullion industry. Audit inspection protocols are published on BullionStar's website. BullionStar is also fully audited by a licensed auditor in accordance with the Singapore law.
